Land Due Diligence Report

Registry search, physical site visit, and risk assessment prepared ahead of a proposed purchase.

REPORT REF.	AAI-DD-2026-0289
DATE ISSUED	2 June 2026
PREPARED FOR	Mr. Francis Kariuki (Sample Client)
SUBJECT PARCEL	Kiambu/Ruiru/2938 (Sample)
LOCATION	Gitothua Ward, Ruiru, Kiambu County
DEED AREA	0.10 ha (0.25 acres)
PURPOSE	Pre-purchase due diligence prior to sale agreement
CONDUCTED BY	Ardhi AI Due Diligence Team, Kiambu Office

Overall Risk Rating: LOW — no adverse findings that would prevent a purchase. See Section 4 for full risk breakdown before proceeding.

1. Registry Search Summary

TITLE NUMBER	Kiambu/Ruiru/2938 (Sample)
REGISTERED PROPRIETOR	Mrs. Alice N. Njoroge (Sample Seller)
TENURE	Freehold
REGISTRATION DATE	14 March 2011
ENCUMBRANCES / CAVEATS	None registered as at date of search
CHARGES / MORTGAGES	None registered as at date of search
SEARCH CERTIFICATE NO.	KRA-SC-2026-11847 (Sample)

An official search was conducted at the Kiambu County Land Registry. The register shows a clean title with no caveats, cautions, charges, or third-party interests recorded against the parcel at the time of search. The registered proprietor's name matches the name presented by the seller.

2. Site Visit Findings

A physical site visit was conducted on 30 May 2026. The parcel was located, and its approximate boundaries were sanity-checked against the Registry Index Map (RIM) using handheld GPS. Full boundary re-establishment was outside the scope of this report — clients proceeding to purchase are advised to commission a full boundary survey (see Ardhi AI's separate Boundary Survey service).

The parcel is vacant, undeveloped land with light bush cover. Beacons at three of the four corners were visible and consistent with neighbouring occupation. Access is via a murram road connecting to the Ruiru-Kamiti tarmac road,

approximately 800m from the parcel.

No structures, cultivation, or occupation by third parties were observed on the parcel at the time of the visit, and neighbouring landowners confirmed no history of boundary or ownership disputes involving the parcel.

3. Documents Reviewed

Document	Status	Comment
Copy of title deed	Provided by seller	Consistent with registry search
Land rates clearance certificate	Provided by seller	Current to FY 2025/26 — no arrears
Seller's national ID	Sighted, copy on file	Matches registered proprietor name
Land Control Board consent	Not yet applied for	Required before transfer — advise seller to initiate

4. Risk Assessment

Risk Area	Rating	Comment
Title / ownership fraud	LOW	Registry search and seller ID cross-checked and consistent
Boundary dispute	LOW	No adjoining-owner objections raised; full survey recommended before transfer
Outstanding land rates / rent	LOW	Clearance certificate current, no arrears found
Land Control Board consent	MEDIUM	Consent not yet obtained — required for agricultural land transfers
Riparian / road reserve encroachment	LOW	No river, lake or gazetted road reserve within parcel

5. Recommendation

Based on the registry search and site visit conducted, no findings were identified that should prevent the client from proceeding with the purchase. Ardhi AI recommends that, before signing a sale agreement, the client (a) confirms the seller has applied for Land Control Board consent, and (b) commissions a full boundary survey to formally re-establish and mark all four corners on the ground. Ardhi AI can arrange both as a next step.

6. Preparer's Certification

This report reflects the findings of a registry search and site visit conducted by Ardhi AI on the dates indicated above. It is not a legal opinion and does not replace independent legal advice.
